

## Rechargeable Batteries used in our Day to Day Life

### Preamble:

On the occasion of **National Science Day** Arranged a **National Seminar** on “Rechargeable Batteries Used in our Day to Day life” on 28<sup>th</sup> February 2022.

### Participants:

200 Students of Chemistry.

### Resource Person:

Dr. J.Vastala Rani, Principal Scientist, Indian Institute of Chemical Technology (IICT),  
Hyderabad.

### Description of the Programme:

On the occasion of National Science Day the Department organised a National Seminar on “Rechargeable Batteries Used in Our Day to Day Life” for all the Chemistry students. The Resource Person explained about the Batteries especially Lithium Batteries which are used in our Daily life. She also discuss the working of various types batteries and their applications in various Industries. The resource person also gave the information about the career opportunities in chemistry and various research fields and R&D Centres across India. She creates awareness about research field and details of CSIR. After the completion of the lecture students are interact with the resource person and clarified their doubts. They inspired by the bio data of the Scientist.
