

Field Trip

Preamble:

Arranged a field trip to **Pasteur Education and Research Training Laboratory, Guntur** on 30-03-2022.

Participants:

60 students of Chemistry cluster and Two faculty members.

Description of the Programme:

The Department arranged a field trip to **Pasteur Education and Research Training Laboratory, Guntur** for chemistry cluster students. In this trip students visit **Pasteur Education and Research Training Laboratory Botanical Garden** and research laboratories. The faculty members of the laboratories explain the basic experiments of analysis of different products and also they explain the importance of various medicinal plants. The managing director addresses the students and offer to do projects in their laboratories. Students are very impressed and show interest to do projects in Pearls labs.
