

DIGITAL LITERACY (P.M.G.D.S.A)

DATE : 28-06-2017

BRIEF REPORT

The Government had implemented the *National Digital Literacy Mission (NDLM)* to impart IT training to non-IT literate citizens so as to enable them to actively and effectively participate in the democratic and developmental processes of the Nation.

Under this scheme our students imparted computer knowledge to the faculty and students of our college. This program helped them how to use digital technologies for meaningful actions in life situations. This awareness program made them to operate computers/digital access devices like tablets, smart phones, etc., send and receive emails, browse internet, access Government Services, search for information, undertaking cashless transactions, etc. They even got knowledge of using E-Textbooks, Videos etc. related to academics.
