Principal

Introduction

The Department of Computer Science successfully organized a Community Service Program on the topic “Orientation on SwechaAP & SLC Interested Signups to form Team”. The event was conducted with the objective of introducing students to the SwechaAP initiative and to motivate active participation through Student Leadership Councils (SLC).

Description of program

Objectives of the Program:

- To introduce students to the SwechaAP initiative and its core values.
- To guide students on the formation of Student Leadership Councils (SLC) within the institution.
- To encourage student signups and active participation in community-driven tech projects.
- To provide exposure to open-source development and socially relevant technologies.

Highlights of the Event:

Sri. Naga Malleswari Chennamsetti began the session by explaining the vision and mission of SwechaAP, a volunteer-driven organization promoting free and open-source software in Andhra Pradesh. She emphasized the importance of technology for social change, and how students can become catalysts for development by contributing to open-source projects.

Sri. Anusha Majji provided insights into her professional journey and highlighted the significance of leadership, collaboration, and innovation in the tech industry. She also discussed how platforms like Swecha help bridge the gap between academic knowledge and real-world problem-solving.

Conclusion:

The Community Service Program served as a powerful platform to ignite enthusiasm among students towards technological service and leadership. The Department of Computer Science expresses gratitude to the resource persons for their valuable time and inspiring insights. The department looks forward to establishing a vibrant SLC team that contributes actively to SwechaAP and similar initiatives.
