

DEPARTMENT OF BOTANY & ECOCLUB

Name of the Event : Eco-Friendly Rakhi Making with Seeds

Date : 28-08-2026

Total number of participants : 41

Brief Report:

The Department of Botany organized an **Eco-Friendly Rakhi Making Activity using Seeds** to promote environmental awareness, creativity, and sustainable practices among students. The students prepared **41 eco-friendly Rakhis** using seeds and other biodegradable materials, avoiding plastic and synthetic materials.

The activity created awareness about **seed conservation, plant propagation, biodiversity, and environmental sustainability**. Students enthusiastically participated in the activity and showcased their creativity through innovative seed-based Rakhi designs. **The best Rakhis were recognized with prizes**, encouraging students to actively participate in eco-friendly initiatives.

The programme successfully promoted the message of **“Celebrate with Nature”** and encouraged students to adopt sustainable and environmentally responsible practices in their daily lives.

Students prepared their ecofriendly rakhis by using rajma, green gram, pigeon pea, black chick pea etc....

Students showing their ecofriendly rakhis to the Principal –DR.P.V Durgavathi madam and judge DR.K.Sarala madam

Prize winners
