

GUEST LECTURE ON CAREER OPPORTUNITIES IN ZOOLOGY

Date : 20-12-2025

Class : I B.Sc. Hons. Zoology and II & III B.Sc. Hons. Aquaculture

Resource Person : Ms. U.Bhuvaneswari
Junior Biologist at Vantara Jamnagar, Gujarat, India.

Brief Report:

The Department of Zoology organized a **Guest Lecture** for the **I B.Sc. Hons. Zoology and II & III B.Sc. Hons. Aquaculture students** with the objective of providing students with guidance on career opportunities, professional skills, and the practical application of zoological and life-science knowledge.

Ms. Bhuvaneswari interacted with the students and shared her academic and professional journey, providing valuable insights into the transition from college education to a career in the field of biology and wildlife-related professions. She explained the scope of **Zoology and Aquaculture**, various career opportunities available after graduation, and the importance of developing practical knowledge and professional competencies.

She particularly highlighted the significance of **field exposure, animal care, biodiversity conservation, scientific observation, communication skills, teamwork, and continuous learning** for students aspiring to build careers in zoology, wildlife biology, aquaculture, research, and allied fields. Her personal experiences as an alumna and Junior Biologist provided students with a realistic understanding of professional opportunities in the biological sciences.

The interaction encouraged students to identify their career interests and motivated them to make effective use of their undergraduate education to develop the knowledge and skills required for future employment and higher studies.

The programme served as a valuable platform for **alumni–student interaction and career orientation**, strengthening the connection between the Department and its alumni. The students actively participated in the interaction and benefited from the practical insights and guidance shared by the resource person.
