Academic Visit to SRM University

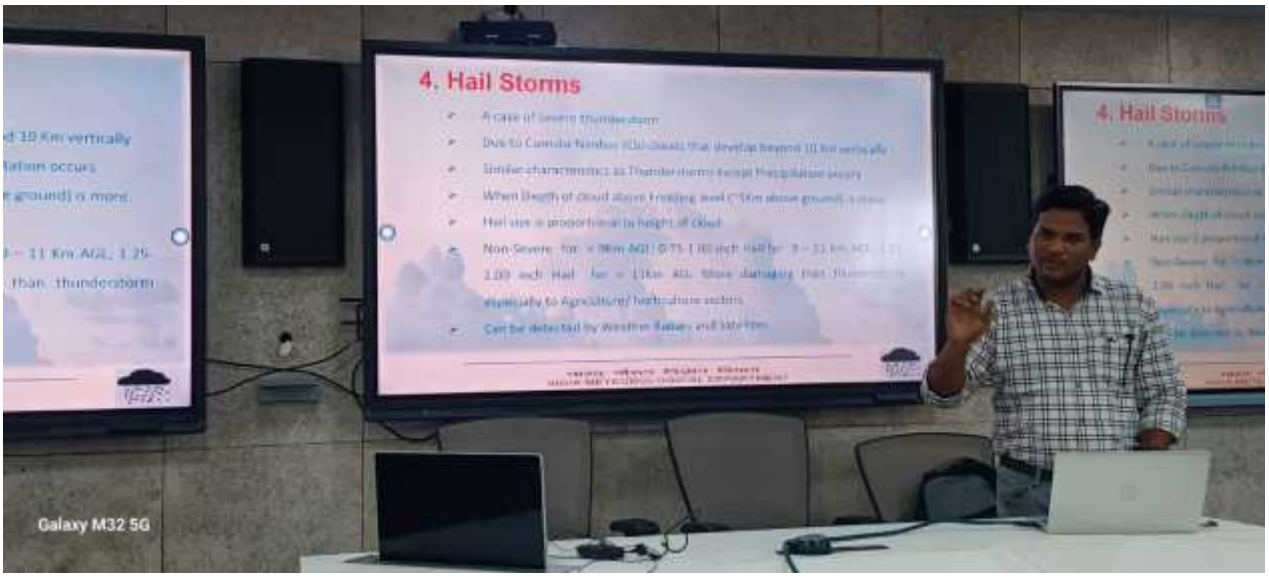

Date :28-9-2026

Brief report:

The Department of Botany organized an **academic visit to SRM University** The students visited the **Weather Station and Quantum Computing Laboratory**, where experts explained the working and applications of weather monitoring systems, sensors, environmental data collection, and real-time weather analysis.

The students were also introduced to the **basic concepts of Quantum Computing**, its differences from classical computing, and the advanced instruments used in quantum research. The visit provided valuable practical exposure and helped students connect theoretical knowledge with real-world applications.

Overall, the visit was an **enriching and informative learning experience**, inspiring students to explore emerging technologies, environmental science, and scientific research.

Lecture by Dr.S.karuna sagar

Rain gauge observation by the II BSc Botany students

Maximum and minimum thermometer observation by II BSc Botany students

Anemometer and wind vane observation by II BSc Botany students
